PRUSSIAN SOCIALISTS MAKE DEMONSTRATIONS

BERLIN, Apr. 10.—One hundred and twenty thousand socialists and radicals marched through the streets of Berlin today, demanding suffrage reforms for Prussia. The demonstration was the most impressive ever witnessed in the Prussian capital.

The great socialist parade was only the beginning of the demonstration. Many who had not theretofore allied themselves openly with the more radical element joined the great army as it marched by, and helped to swell the numbers. Men cheered and women cried in their enthusiastic abandon.

Back and forth through the main streets of the capital city the strange procession moved, growing longer every hour. Someone struck up a socialist hymn, and soon the whole great procession joined in song, the sounds ringing through the city like the music from a giant choir. Several hours were required by the parade in passing, and persons along the line of march cheered wildly.

After the parade the participants gathered in the public squares of the city and made speeches. Here again they made many converts, and many who had never given the question a moment's thought were soon shouting for a reform of the electoral system.

The crowd was fairly orderly and gave the authorities practically no trouble. It was decided by the agitators to prepare gigantic petitions to be presented to the Emperor and to the Reichstag.

RATHER WAR THAN PEACE.

LIMA, Peru, Apr. 10.—In spite of the offer of the Ecuadorian government to submit the differences between that country and Peru, arising out of a disputed boundary line, to the arbitration of the United States, the preparations for war here are going ahead, with the feeling of jingoism strong throughout the country. The Peruvian regular army is being prepared in readiness to take the field at a moment's notice, and there is a rush to prepare the vessels of the navy for possible hostilities.

So critical is the situation and so apparently imminent the outbreak of hostilities that many foreigners are volunteering for service. Among the volunteers are two thousand Japanese, soldiers who have seen active service in Manchuria. Five hundred Italians have also offered their services to the Peruvian government.

The offer of enlistments from the volunteers has been accepted, and the Japanese and Italians are being organized into individual commands.

WICKERSHAM FLAYS INSURGENTS.

CHICAGO, Apr. 10.—Attorney-General Wickersham, one of the principal speakers at yesterday's celebration of the forty-fifth anniversary of the day when Lee surrendered to Grant at Appomattox, devoted his speaking time to a vigorous defense of the Taft Administration, his speech being one of the strongest yet made by any member of the Taft Cabinet since the general attack upon the President and his advisers. The speaker made reference to the cabled announcement that the former President was in constant receipt of letters from America complaining of the Taft policies, and on these launched his defense of the present occupant of the White House.

The Attorney-General did not mince his words, vigorously flaying the detractors of the Administration and paying especial attention in his remarks to the insurgent Republicans, whom he designated as among the principal enemies of President Taft.

SHIPS COLLIDE; EIGHT DROWNED.

MANILA, Apr. 10.—The steamer Del Pilar sank Friday in Philippine waters and eight persons lost their lives. Eighty-seven others, passengers and crew, were rescued from the wrecked ship with great difficulty, the rescuers being subjected to considerable danger themselves.

The Del Pilar collided with the steamer Mangolnan off the Mindoro coast on Friday last. The collision was of such violence that the bow of the Del Pilar was torn away and the doomed vessel sank within a very few minutes after the collision. Many of the passengers who were on deck when the ship went down were able to get hold of bits of wreckage and thus they kept themselves afloat. Eight went down with the ship, however.

REVOLUTIONISTS IN RIOT.

ST. CHAMAND, Apr. 10.—The opening here of the electoral campaign of M. Briand today was marked by a violent revolutionary outbreak. The anarchistic element took advantage of the opportunity to express its hatred for law and order, and for a time the situation was serious.

In the course of the rioting Briand was attacked, and it was necessary to send police to protect him from the fury of the mob. Later in the day the anarchist who attacked the candidate was placed under arrest by the authorities.

The outbreak is considered to possess more than passing significance, and the authorities are taking steps to see that there are no repetitions of the scene.

LARGEST DREADNOUGHT IS READY.

BOSTON, Apr. 10.—The battleship North Dakota, the largest war vessel afloat, is now ready for commission. The finishing touches to the armament were put on last week, and all is now in readiness for the captain to step on board and take the vessel out to sea.

The North Dakota is considered by naval experts to be the finest ship of the Dreadnought type in existence, and she is classified apart from and above any other type of fighting ship extant.

TAFT SPEAKS ON TARIFF.

WASHINGTON, D. C., Apr. 10.—President Taft, Congressman Payne and Congressman Longworth spoke at the meeting of the League of Republican Clubs here last night, the President being warmly received.

The speakers dealt with the various phases of the present tariff schedules, defending them and the policy of the administration in supporting the tariff bill and the framers.

COLLIDING TRAINS INJURE MANY.

SPOKANE, Wash., Apr. 10.—Thirty persons were injured here yesterday in a collision between two trains in the suburbs of the city. Both trains were traveling at a high rate of speed and came together head on. It is feared that a number of those injured will die.

HOLDS VACCINATION LAW AS INVALID

Santa Cruz Judge Decided Case Against State Health Board.

SANTA CRUZ, March 22.—Today Judge Lucas F. Smith rendered a decision against the State Board of Health in the action to compel the pupils in the Watsonville schools to be vaccinated. The Trustees had refused to force compulsory vaccination, and the petition was made to the Superior Court for a writ of mandate barring from schools all children not complying with the State law, which in this case would affect 250 pupils. The jurist almost at the outset held the State law as unconstitutional in that it exempts from its provisions children attending private schools, which the Judge

says is class legislation. He comes close to classing this law as favoring the rich, who can send children to private institutions, while the greater class of people must suffer the penalty of the violation of the vaccination law, which they are unable to avoid on account of being poor. The Court held that every one would be in for the enforcement of the law if circumstances so demanded, but there is no epidemic to warrant the step taken by the State Board, and says: "While our State Board of Health is rendering valuable service to the people of the State in many ways, yet I do not believe the law empowers it to compel, by writ of mandate, another Board of equal standing before the law to exclude children from public schools when there is no public necessity for so doing. The vaccination law, if not repealed by a penal statute, is directory only, and hence the School Trustees are the sole judges when students not vaccinated should be excluded from the public schools by reason of any actual or threatened danger to the public health from smallpox or any other contagious disease."

FRENCH WOMEN TO RUN FOR OFFICE

PARIS, March 24.—If the leaders of the French woman suffragettes carry out their program the elections next month will be much livelier than usual as they intend to present women candidates for deputies in every arrondissement of Paris as well as in other parts of France. The candidates will be placed before the electors without the formality of primaries, and

there is no way of preventing this action.

Marguerite Durand, journalist and lecturer and former editor of the woman's daily paper, La Fronde, who has started the campaign, said today, when asked as to the program if the women were elected:

"First, we wish to get the right to vote and to hold all political offices. Personally, my first desire is to abolish the sale of absinthe, close the public gambling rooms, reduce the number of cafes, reform the divorce laws, humanize the prison system by appointing women inspectors, and then to legislate on social and economic questions affecting women."
